

# And I Love Her

**Dm**                      **Am**                      **Dm**                      **Am**  
I give her all my love,              that's all I do

**Dm**                      **Am**                      **F**                      **G**  
And if you saw my love,              you'd love her too

**C**  
I love her

**Dm**                      **Am**                      **Dm**                      **Am**  
She gives me everything,              and tender-ly

**Dm**                      **Am**                      **F**                      **G**  
The kiss my lover brings,              she brings to me

**C**  
And I love her

## **Chorus:**

**Am**                      **G**                      **Am**                      **Em**  
A love like ours,              could never die

**Am**                      **Em**                      **G**  
As long as I              have you near me

**Dm**                      **Am**                      **Dm**                      **Am**  
Bright are the stars that shine,              dark is the sky

**Dm**                      **Am**                      **F**                      **G**  
I know this love of mine,              will never die

**C**  
And I love her

**Dm**                      **Am**                      **Dm**                      **Am**  
Bright are the stars that shine,              dark is the sky

**Dm**                      **Am**                      **F**                      **G**  
I know this love of mine,              will never die

**C**  
And I love her

**Dm**              **Am**              **Dm**              **G**
