Sing G

I Have a Dream

```
C       G7              C           G7          C
I have a dream, a song to sing,   to help me cope with any-thing

                G       G7         C
If you see the wonder      of a fairy tale,

                G       G7          C
You can take the future      even if you fail

            G7                        F          C
I believe in angels,   something good in everything I see
            G7                        F           C
I believe in angels,   when I know the time is right for me
              G7              C
I'll cross the stream,   I have a dream

C       G7              C           G7          C
I have a dream, a fan-ta-sy,   to help me through   re-al-ity

            G       G7              C
And my des-ti-na-tion      makes it worth the while

            G       G7          C
Pushing through the darkness      still another mile

            G7                        F          C
I believe in angels,   something good in everything I see
            G7                        F           C
I believe in angels,   when I know the time is right for me
              G7            C                G7              C
I'll cross the stream, I have a dream   I'll cross the stream, I have a dream
```
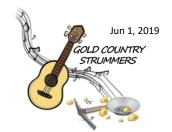

(8 bar instrumental - then to top)

```
            G7              C                G7              C
