Since I Opened Up the Door

Baritone

D In my weakness you always make me strong

A7 All I want to do now is praise you all day long

D If I should stumble, you're there to pick me up

A7 When I get thirsty, I know you'll fill the cup

Chorus:

D Since I opened up, **Em** opened up the door

A7 I can't think of anything else but you any - more

D Since I opened up, **Em** opened up the door

A7 I can't think of anything else but you any - more

D In a shadow you flood me with your light

A7 To give you pleasure is now my one de-light

D When I get weary, you give me peaceful rest

A7 If my life gets troubled, I know its just a test

<Chorus>

D When I get lonely, you're there to comfort me

A7 You clear the haze away so that my eyes can see

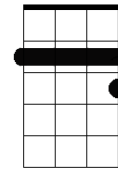

D If I'm distracted, you pull me back in line

A7 All I can say Lord, you really treat me fine

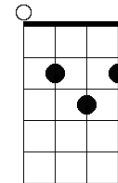

<Chorus>

A7 I can't think of anything else but Jesus any-more
